

What we do

We think that when we meet, you'll like us.

Whether we're meeting in person or dealing via the dedicated customer section on our website, we're completely focused on making sure that buying print is simple and enjoyable, not a chore.

“ First Colour has been (and I believe will stay) a preferred supplier of TfL, and over the years, a continued, clear channel of communication has been established between TfL and First Colour, resulting in First Colour always delivering our requirements with great efficiency and to our high expectations of time, cost and top quality. ”

From printing business cards and swing tags right up to large format posters and banners (we can handle up to 1.5m wide and any length).

We can print, cut, fold, perforate and finish practically anything you can imagine.

All in-house.

“ As an organisation that has large and ever-changing printing requirements, we've found First Colour is always able to manage our requests both efficiently and to the highest quality. ”

Management Ventures Inc.

The First Colour approach is all about service. Whatever you want, from a single poster to 50,000 flyers, we will deliver with the same attention to detail and quality, via one of our friendly account managers who will look after your every need.

When we say that no job is too big or too small, we really mean it.

“ We produce a wide range of printed material, and have found First Colour to manage these requests efficiently and to a high quality at all times. Excellent, reliable service, communication and flexibility, for us, is what sets them apart from the many other printers I have worked with in the past. ”

At First Colour we're so much more than a general printer.

We have over 4,500 square feet of space and we've invested heavily in the latest plant and equipment to ensure that the range and quality of our in-house services are second to none.

“ Many thanks for working with us on this and turning this job around so quickly. The extra effort to work around changes and go the extra mile to ensure completion was very, very appreciated. I will be sure to recommend you to my colleagues for any future jobs. ”

Deloitte

Although we're dedicated to delivering top quality results, that doesn't mean we keep our customers waiting; far from it, we specialise in fast turnaround jobs, because we know that our clients expect sparkling service.

“ A big 'THANK YOU' for the superb job you did on the four documents for the Mettle Group. I would also like to thank you for delivering them on time (this hasn't always happened with previous printers).”

Mettle Group

first to finish

We also care passionately about the environment. Our latest equipment gets your job onto our press using absolutely no chemicals. We then print it without solvents, using vegetable-based inks and FSC certified paper (all from renewable sources, made without using chlorine bleach).

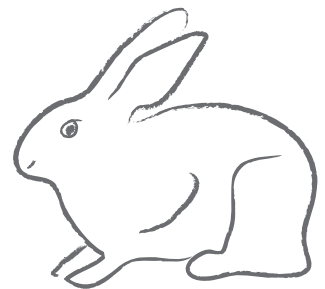

First Colour have gained accreditation for ISO 14001 and ISO 9001, the internationally recognised standards for Environmental Management and Quality Management respectively.

“ After assessing whether the material could be produced in such a short period of time, our production issues were resolved and the material was made available for pickup that afternoon. We asked for the impossible and they delivered with time to spare. ”
